E-Governance & Government Process Change

December 04-06, 2017
MDI Campus, Gurugram
**Background**

E-Governance is commonly understood as the use of ICTs (Information & Communication Technologies), especially the internet, as a tool to achieve better government. Today, the concept of E-Governance is being adopted by the governments of many countries and is seen as a reform programme aiming at improving the efficiency and effectiveness of the government services. However, e-Governance is just not another information technology application; rather it is a complex system that has to be implemented in a dynamic environment involving citizens, policy makers, policy executors, government processes and policy regulatory frameworks.

Because of the complexity involved and the dynamic environment, in which e-Governance has to operate, it is required to be understood in the right perspective. Some of the critical success factors for e-Governance implementation are to identify e-Governance applications which will significantly improve the performance of the government; perform detailed analysis of government processes; understand ‘AS-IS’ processes; design the ‘TO-Be’ processes; formulation of change strategy; and implement such systems.

Realizing this need, MDI, has taken an initiative to conduct a three days full time programme for the managers working in any of the functional areas, so as to sensitize the participants to the need for and scope of government process management in implementing E-Governance systems. An interdiscipliary approach has been applied to the design of this programme so as to provide benefit to all the participants from the different functional areas of the business.

**Objectives and Contents**

- Sensitize professionals to the need for; and scope of E-Governance applications in various areas of government/ public sector organization;
- Provide integrated inputs in government process re-engineering (GPR); Planning and Implementation issues;
- Develop appreciation of the importance of E-Governance applications to government through the use of case studies of the real life and simulated environment.

The deliverable modules in this program are:

1. Establishing the need for E-Governance Systems in Government/ public sector undertakings
2. Understanding the concept and application of government process re-engineering (GPR)
3. Planning for E-Governance Systems
4. Implementation of E-Governance Systems
5. Managerial Issues in change implementation

**Pedagogy**

The program pedagogy consists of

- Lectures
- Case Studies
- Group Discussions
- Simulation/Assignment
- Project Work

Dr D P Goyal is Professor of Management Information Systems at Management Development Institute (MDI), Gurugram. A Post graduate in Business Management and Doctorate in Management Information Systems, Prof. Goyal has more than 30 years experience of corporate; teaching; research and executive training. He has successfully supervised 14 Ph.D. scholars. He has been principal investigator of a couple of sponsored research projects and published over 50 research papers in refereed international/national journals of repute. He has organized several conferences both at the national and international level, and has presented his research findings in more than 40 national/International Conferences. He has been the editor of a couple of research journals; and on the Editorial Board of national/ international journals. Prof Goyal has authored 03 books; one each on MIS; ERP Systems; and IT Project Management.

Prof Goyal has been on the expert / assessment committees of All India Council for Technical Education/ Directorate of Higher Education, Government of Delhi and a couple of universities. He is also on the board of studies and advisory committees of some of the b-Schools and universities. He is a life member of a number of professional bodies including Indian National Science Congress and Indian Society for Technical Education.

His interest areas include Business Process Management; Enterprise Information Systems, Information Systems Strategy, and Business Analysis for IS Solutions.
The Management Development Institute (MDI) was established in 1973 with the active support of IFCI following an initial grant received from KFW West Germany. The Institute soon established itself as one of the earliest centers for continuing education in India. As an endorsement of its front runner position in the field of Post Graduate Education in Management in India, MDI’s PGPM (a two-year full time MBA equivalent program) has been awarded a “A” Grade by the National Board of Accreditation of All India Council for Technical Education (AICTE). Various surveys have ranked MDI among the top B-schools of the Country. The MDI is the first Indian B-school with Global accreditation AMBA-Association of MBAs, UK. The education programs comprise of two-year full-time PGPM, PGP- HR, PGP-IM, 15-month Executive PGDBM, three-year Executive Management Program, Doctoral level FPM I EPFM, Post Graduate Program in Energy Management, and PG Diploma in Public Policy and Management. In addition to its academic programs, MDI has been a pioneer as well as a market leader in the area of continuing education in management. With over 43 years in this field, MDI conducts nearly 200 weeks of intensive short-term training programs each year, aimed at executives and managers from industry Over 3000 managers participate in these programs each year. These include open programs, as well as customized organization specific training modules. The approach integrates latest knowledge with best practices through integrated business school activities enabling organizations in pursuit of excellence.

MDI offers consulting services in the different functional areas of management. The driving force at MDI is a dedicated team of distinguished faculty who has extensive experience and expertise in diverse fields. Over the years, there has been distinctive shift in emphasis from helping design and implement policies, systems and processes in functional domains to cross-functional domains. The institute is recognized by the industry (public and private), Central and State governments, and NGOs and is known for providing quality services to its clients. MDI always strives to provide high quality, cost-effective and timely services to the clients. It has remained contemporary through its primary focus on research, adapting to change and developing innovative strategies to facilitate the process of change in the dynamic business environment. The institute’s clients say that it has been able to add value to them by bringing in a strong cross-functional emphasis in their approach to carry out business.

As part of its strong research focus, MDI supports the following research initiatives:

- Centre for Supply Chain Management
- Centre for Excellence in Information Management
- Centre for Entrepreneurship
- Centre for Transformational Leadership
- Centre for Corporate Governance
- Centre for Responsible Business
- Centre for Positive Scholarship

MDI maintains high level of academic excellence in management. It has over 80 full-time faculties who have several years of experience having worked at senior positions in the industry. The faculty is thus able to deliver a healthy mix of practical insights and academic rigor in the classroom. MDI also has strong links with leading international B-schools. This aids in delivering a globalized management curriculum. As part of the global initiatives, student and faculty exchanges go on regularly. Joint research projects are also undertaken. Above all, MDI has a well developed state-of-the-art infrastructure, which includes a library with a collection of over 60,000 volumes, and online access to international journals, a computer center with over 500 PCs, air conditioned lecture halls and syndicate rooms, besides a host of other recreational facilities.
