Director's Welcome

Management education is at the cusp of a major shift. Technology, geopolitics and rapid innovation conspire to craft the futures of today's students very differently from that of generations before them. Standard curricular approaches, models and structures struggle to arm students with the skills they need at the workplace. What can be "taught" in a classroom is already available online, usually free. Recruiters increasingly look for a combo of minds that can deal with unfamiliar landscapes, strategize in a VUCA world, and passion that can galvanize teams and execute in the face of surprises and disappointments. As the pandemic has shown us, public service today demands novel approaches to solve unprecedented challenges and relentless innovations. It sure ain't the 2010s anymore!

Young at 50, MDI is uniquely poised to take on these challenges. Consistently ranked among the nation's best, it creates the best peer learning environments – powered by the intellect, energy and excitement of one of India's brightest student bodies -- across programs in traditionally corporate-focused business as well as in the art of governing. Guided by a world-class faculty -- seasoned and research-active – it enables learning with best-in-class infrastructure in (or virtually linked to) a verdant campus at the heart of one of the country's most buzzing corporate and

entrepreneurial hubs. MDI alumni run corporate behemoths and launch unicorns. It provides the perfect setting to reflect on the questions that matter – in business and public policy -- with the connects to help the answers make a difference.

At MDI, we realize that life after 50 will be different. It will be inevitably global, digital and experiential. Paradigms can no longer be taught; they need to be shaped. Businesses will range from global to hyperlocal. Cultural ethos shall continue to define societies and yet borders will be more porous than ever. The agility demanded of a public official and political leader will rival that of tech entrepreneurs. We cannot wait to be part of that action!

Whether as an aspiring B-Schooler, or a motivated public official, a corporate executive, a passionate entrepreneur, a seasoned recruiter, a global scholar or an aspiring academic, it is more likely than not that you will find what you want at MDI. Come, talk to us. Drop a line; or better still drop in, when things permit. Who knows what we can create together?

Alumni Speak

My 2 years at MDI Gurgaon were a rollercoaster ride, to say the least. I was part of the unfortunate batch which had to go through a whole year of online classes and virtual internships which meant we could not network as much as a normal MBA batch does. But that said, it is nothing to take away from the fact about how holistic the experience was and how much I learned throughout the course. I got to work with some of the best minds in the country and studied under industry stalwarts. The best part of MDI is that the institute challenges you every day and throws something at you that you think is impossible just to realize how much you can push yourself and get things done. Being part of the students' council taught me a whole lot about stakeholder management and decision-making. To sum up, I can say that I am proud to be part of the Mandevian legacy and looking forward to working with the institute to take it to better places in the future.

I would describe my time at MDI Gurgaon as a melting pot of experiences, where I got an opportunity to sample the heft of academic excellence delivered by a mix of highly experienced resident and visiting faculty, mingled with a smart and diverse peer group, cracked complex academic and live industry problems, and partook in a plethora of student activities to help me give back to the institute and the society. At the end of two years, I walked through the doors of my alma mater as a thorough professional - armed with the skills required to boost my career, the humility and sensitivity to build lasting relationships, and the confidence and tact to deal with any situation.

MDI's PG HRM course not only made me privy to the changing expectations of HR leaders in the post-pandemic era but also equipped me with the necessary tools to survive and navigate successfully in this agile and dynamic business environment. The multitude of guest lectures and corporate talks from business leaders during the 2-year course brought in a new perspective of thinking and helped me understand and curate my thought process as to what drives and sustains a business. It is sad that most of the curriculum for us (PG 20-22) was online due to the pandemic, but MDI still gave us the requisite platform to work and grow together during the project presentations, club events, the dreaded placement seasons, and the evergreen batch meets. I am grateful to MDI for the innumerable lessons, unparalleled industry exposure, countless sleepless nights, the infinite connections and network, and the bags of memories that are going to guide me forever in the corporate world.

My experience at MDI can be summarised as educational and enriching at the same time. Coming from an Engineering background MDI truly broadened my outlook and set up expectations for the global business context. The early morning classes, late night group project discussions, Jhaji's midnight maggi etc. all are memorable experiences. Classes were never boring with world class professors like Atmanand sir and Jyotsna ma'am. All said and done I truly cherish my days at MDI.

MDI was one of the best phases of life. Firstly, it is at a great location with a beautiful campus. I had met some of the smartest and learnt from the best at this place. Apart from academics, there are hundreds of other activities and we always run against time to complete them which really brings out the best in us. With Best of the faculty, great alumni and with all the clubs at campus, learning was fun at MDI.
